

A cross-sectional view of a multi-layered structure 10. The structure consists of several horizontal layers. The top layer is labeled 18. Below it is a layer labeled 24. A central region within the top layer is labeled 20. Below the top layer is a layer labeled 22. Below layer 22 is a layer labeled 14. The bottom layer is labeled 12. The entire structure is labeled 10 with an arrow pointing to it. A label 16 points to the right side of the structure.

A cross-sectional view of a multi-layered structure 10. The structure consists of a top layer 12, a middle layer 14, and a bottom layer 16. The top layer 12 is divided into three regions: a left region 18, a central region 23, and a right region 27. The central region 23 is filled with a stippled pattern. The left region 18 is labeled with 24, and the right region 27 is labeled with 25. The middle layer 14 is labeled with 23, and the bottom layer 16 is labeled with 12. A reference numeral 10 points to the entire structure. A cross-section symbol is shown below the structure.
